UCSF University of California San Francisco

Transportation Fair Days

A ten-speed bike, jogging shoes and five MUNI fast passes were up for grabs for the UCSF employees with the best suggestions on how to resolve the campus' parking and transportation problems at the University's first Transportation Fair Days, April 13 and 14.

The fair included a forum with Chancellor Francis Sooy, Asst Vice-Chancellor Robert Cannon and MUNI General Manager Curtis Green speaking on the day's topic and answering questions. Various transit districts provided displays and information on routes and schedules; and biking and jogging clubs set up tables to recruit new members.

"Pool it Week" will follow April 25–29 in which faculty, staff and students will be encouraged to make a genuine effort to give up their single-occupant vehicles for the week.

BLOOD DRIVE
Neighbors will have an opportunity to donate blood in their own name or that of a friend's or relative's on Tuesday, May 17 from 10 am–7 pm in the Main Lounge, Millberry Union, 500 Parnassus. Donations will be taken all day, or an appointment can be made at 666-4013.

Health Fair on Saturday May 14 at Laguna Honda School

Guided by the theme, "Your Health—It's Up to You," neighborhood residents, health care agencies and UCSF are planning a one-day Health Fair on Saturday, May 14 at Laguna Honda Elementary School playground, on Seventh Avenue near Irving.

Displays are expected from many UCSF departments and from the American Red Cross, Sexual Trauma Center, Geriatric Services, Coalition for Medical Rights of Women, the Health Improvement Program and other agencies.

A Health Career booth will offer counseling for students and others considering a career in health.

Entertainment will be provided by UCSF singers, dancers and musicians from 1 to 4 pm. The UCSF Hospital Auxiliary will sell nutritious foods, including yogurt, zucchini bread and carrot cake at minimum prices. The Fair will be open from 10 am to 5 pm.

Tay-Sachs Screening

The Northern California Tay-Sachs Disease Prevention Program will sponsor a screening to identify Tay-Sachs carriers Wednesday, May 4, 3:30–6:30 pm in the Madrone Room, Millberry Union, 500 Parnassus.

Tay-Sachs disease is a recessive genetic illness that attacks Jewish infants 100 times more frequently than the general population. It is always fatal and there is no cure. Testing is open to the public, no appointment is necessary and results are confidential. For further information, call 665-3597.
